RegularFolksUnited.com applauds RSC for fiscally responsible leadership

The Republican Study Committee continues to show sound fiscal leadership by proposing a responsible full-year continuing resolution for FY 2011 that protects defense and veterans spending, while returning all other discretionary spending to FY 2008 levels. The RSC plan defunds Obamacare and prohibits any FY 2011 appropriations from being used for earmarks, and protects pro-life riders.

RSC has again proposed a fiscally responsible solution, while Democrats continue to spend recklessly and avoid accountability. RegularFolksUnited.com applauds the RSC for their leadership during these difficult economic times.
